

THE INTERIOR JOURNAL.

FRIDAY, NOVEMBER 8, 1872.

ELECTION VICTORIAN—EIGHT DRAFTED.

Up to the time of going press we are unable to hear from the counties of Haskell, Taylor, Casey, and Wayne. The majorities for Durban are as follows:

Anderson, 400; Boyle, 119; Mercer,

182; Adair, 13; Lincoln, 356; Total 1,

670. For Bradley; Madison, 227; Gar-

rard, 150; Polk, 636; Total, 913.

Durham's majority 157.

LAW AND CRIMES.

In Congressional race Durban's majority over Bradly (Hancock) 356. By precincts, Stanford 43; Hustonville 43;

Walnut Flat 43; Cranberry 103; Tur-

nerville 57; Waynesburg 84; Highland,

majority for Hendry, 39. Greeley's ma-

jority is about 230. O'Connor received

25 votes in the county.

A NEW new chicken cookout for sale at this office.

SCHOOL FOR SCANDAL—The late Presiden-

tial election.

CINCINNATI now claims a permanent

population of 350,000.

BISBEEY'S autobiography is said to be

nearly ready for the press.

It is not generally credited that Gres-

ley will contest the election.

THE last thing that Fanny Fern wrote

was a plan for school children.

THE Congressional Globe requires an

annual outlay of about \$350,000.

FOR A DAY, the negroes polled a

very strong vote here last Tuesday.

A BURLINGTON, Iowa, book firm ad-

vertises Bibles "Superior to any other."

THE postal railway service has been in-

creased during the last year 10,000 miles.

GRANT'S policy for the next four years

is, "No quarter to be shown to the Lib-

erals."

THE Farmers of Brantley county, Ten-

nessee have sown twice the usual amount

of wheat.

THERE are no "ifs" and "nuds" about it, the Northern Democracy will not do

to let on.

GREELEY carried Kentucky. Hud-

leas, Duncan, et al., to the contrary not

withstanding.

THE report has got abroad upon our

streets, that there was an election held

here on Tuesday last.

Mrs. ANNA E. DICKINSON threatens

New York with her lecture, entitled,

"Things Hoped For."

BOTTLED paper is made from soap-

wood in Colorado, which is in great pro-

fusion on the Western prairies.

A MAYSVILLE grocer recently tapped

a barrel of old Bourbon and sold it out at

ten cents a quart, supposing it to be

vintage.

THE building in which the Vienna

Exhibition is to be held next year will

be six times larger than that of the great

Paris Exhibition of 1867.

GRANT is reported to have said that

"the late verdict of the people had vindi-

cated his private character, and that

was all he had left anyway." Then he

has got a light stake.

THE sad intelligence thrills the land

to-day that the President's horses are

sick. It is a public happiness, though,

that those precious animals are accom-

modated in a palatial stable.

OVER AT LAST.

The great contest has at last come to a

close. The excitement consequent upon

a Presidential race, has already begun to

subside. We have during the late can-

vased to do our duty in our humble

way, it is true, but in a spirit of friend-

ship, and not of hostility.

THE HARRODSBURG People say: "Lit-

tle Willie's eyes hold the brightness and

his memory the pleasure of only four

summers. During the past summer he

has been very much interested helping

his grandfather to raise chickens. The

other day he wanted a certain pony,

"Wait," he was told, "till your grandpa

can raise you one." That's too long," re-

plied Willie; "grandpa hasn't even set

the mares yet."

Front the Owensboro Shad: "Au-

reous Jones, of this county, discovered a

few miles from the city, a large number

of rattlesnakes the other day num-

bering one hundred and ten. The largest

was seven feet long, and three inches

around the body, and had eighteen rattle-

s and a button. The smallest was 3

feet long. They were discovered in a

small cave, where they had taken up

their winter quarters. In the cave were

the skeletons of numerous birds, cones,

rabbits, &c."

NOTICE.

We waited a long time to see whether

or not any change would be made in the

news of Wednesday as to the election re-

turns. We waited in vain. All we can

say to our readers, without attempting

details, is that Grant is elected by an

overwhelming majority, and there will

be an increase, instead of a decrease, as

we had hoped, in the number of Radical

members of Congress.

Comment is useless. We can only ex-

hort our glory, that we have, nev-

ertheless, done our duty to our country.

At night, however, after the close

of the polls, two negroes who appeared to

be intoxicated, quarreled, when a pistol

was drawn and presented by one, and a

roar by the other, but they were beaten

down by our efficient marshall before any

one was hurt.—Central Ky. News.

B. DUNCOM.

This man has a hankering after news-

paper life. He has begun it, several

times, and quit it every time. Now that

O'Connor is elected (to stay in New York)

B. D. has concluded to re-establish the

paper which went down in the storm

which engulfed the Bourbon party.

Fredely how long it will live, no mortal

knows. But we consider each individual has a

CORRUPTION TRIUMPHANT.

It needed not the tongue or pen of a prophet or sage to foretell the defeat of Liberalism and Democracy, and the triumph of corruption.

The October elections, going as they did, for the Radical party, sounded the death bell of our own, so far as the race for President is concerned. It is needless to try to conceal the fact that a loss was lost at that time, and that a spirit of apathy seized upon the Democrats everywhere, and made them careless as to the fate of their party or their candidates. It is wrong to say that Horace Greeley was not the man for the times; that another would have brought about a different and a better result. The same consequences would have ensued, no matter who had been placed upon the ticket. The fatal result only proves that the American people are not yet ready for reconciliation and a lasting peace. It proves moreover that the animosities and prejudices engendered by the war, still find lodgment in the hearts of the great majority of our people in the North. That the people of the South are far more forgiving than their brethren of the North, is proven by the vote given in those States to Mr. Greeley.

Kentucky herself, the grand old Democratic State, has done poorly indeed.

Instead of a majority approximating 10,000 for Greeley, we fear it will fall short of one-fourth of that amount. The reason is quite obvious. That reason is not the one which will be given by the Radical press and politicians—namely: Because Radicalism is on the increase, and Democracy on the wane; but because of the spirit of apathy referred to above, and a total want of interest in the election of any one except a "straight-out" Democrat.

The Masons of Danville are about to institute a Commandery at that place.

THE INTERIOR JOURNAL.

FRIDAY, NOVEMBER 8, 1872.

NOTICE.

Those of our advertisers who desire changes made in their advertisements, must hand in copy on Monday morning next.

All communications either of an official or business nature, should be addressed to HILTON & CAMPFIELD, Lexington, Ky.

All notices required for advertising, subscription, or other purposes, should be sent to the editor, except in cases where it will be at the writer's own risk.

James Cook is your authorized agent at Louisville to receive for Job Work, Advertising, etc., to enter into contracts, and receive payment.

John Cook, Lexington; R. E. Dugay, Crab Orchard; W. S. Jones, Pine Hill.

To Our Subscribers.

Our subscribers are respectfully notified that we employ no collectors. All sums due us must be paid to one of the proprietors of this Journal, or in our absence, to our foremen, if you desire proper credit therefor.

X Please Return. X

Three of our subscribers who find a cross mark after their names are notified that this time express with that number, and are earnestly requested to renew. We thank many of our friends for prompt payment, and so far have few refused to continue our paper.

We will in all cases stop your paper when the time for which you subscribed expires. Therefore, please authorise us to continue if you desire to aid in supporting this institution. Our terms are *immediately in arrears*.

Subscription Paid this Week

To prevent errors and to obviate the necessity of resending our subs, we will

publish every week the names of those who pay us, which shall be a receipt to them.

If you have resented your dues by mail during this week, your name does not appear in this issue, you are notified that we have received it.

T. K. Hackley \$1.00

G. A. Luckey 2.00

H. E. Bonner 1.00

Habligous.

Preaching at the Presbyterian church at this place on next Sunday by the pastor, Rev. S. M. McElroy.

Elder C. K. Marshall, of Lancaster, began series of meetings at the Christian church in Lancaster last night.

Presiding Elder S. N. Hall held quarterly meeting at the Methodist church, last Sunday, and has been preaching each night during the week. He is an able and forcible speaker. The meeting will continue during the coming week. There have been two addresses in the church.

Elmer Green Surier passed through this place on Saturday last returning to Somers, his old home, after an absence of five years, during which time he has been actively and abundantly engaged in the Christian Missionary work in Australia.

W. H. ANDERSON keeps refined Sewing Machines.

Died.

Next Hustonville on Wednesday last, Mrs. Lizzie, wife of Andrew Butt.

Near this place on Tuesday last, an infant daughter of Mr. and Mrs. Henry Bingham.

Near this place on Tuesday last of paralysis, Robert M. Wilkins. The deceased had been in a helpless condition for several years. He was a kind-hearted, patient sufferer, and well known as a glutton relief from pain and suffering. He leaves a devoted wife and seven children to mourn his loss.

At this place on Friday night last, of fever, after an illness of eight weeks, Mrs. Elizabeth wife of Mr. W. Warren, aged 56 years. Her funeral was preceded on last Sunday morning by Eliza S. H. King at the Christian church. The deceased was the mother of a large family of children, and well and faithfully performed her duties as a housewife. Many others who left behind to mourn her loss, strive to meet her. In the mansion above, "Blessed are the poor in spirit, for theirs is the Kingdom of Heaven."

J. M. ROCHESTER & CO. have received the first car load of new 7 b. barrels of salt warreped fall weight and new coverage.

Wheat?

We should like to know, in fact we are extremely anxious to know, when the vote of our Lincoln county people will be taken on the subject of granting the right of way to the Cincinnati Southern railroad. We understand that the vote has to be taken some weeks ago, but not a word is said about it now, and we presume the matter will die out altogether, for want of agitation. Like a dead pool, the question becomes more and more stagnant everyday. Patski and Garrison and other counties have already voted and given the right of way to large majorities, and it is our duty to get it at once. If we intend to act at all, there is neither time or sense in longer deferring the question. We have much to gain by immediate action, and a great deal to lose by inaction. Let us, then, be up and doing. Put the question to the voters, and let us see what Lincoln county is willing to do for herself, or whether she is willing to do anything.

THE New Wheeler & Wilson is the lightest running Machine that is made.

Fatal Shooting.

Pegion Miller, of Louisville, and a man named McGee, of Lawrenceburg, Kentucky, got into an altercation at the former place last Saturday, drew pistols, and both fired. Mr. Miller received a slight wound in the forehead, and McGee was killed. His remains passed through this place on Tuesday last, in charge of friends, for interment at the place of his residence. We abstain from giving further particulars at present.

FRESHysters served in any manner at all hours at Carson & Dods.

New Wheeler & Wilson.

Captain T. K. Hackley is still engaged for the New Wheeler & Wilson Sewing Machine. Every lady who has used one of these matchless machines will say that there are none better, nor would she exchange one of this kind for any other in the world. Read the advert in another column and don't buy a machine until you see and try the New Wheeler & Wilson.

20,000 good chiant shingles for sale cheap by Geo. D. Warren.

Bullet.

James S. Harris, who has had two trials already on a charge of murder, with a hung jury each time, has been allowed to give bail in the sum of \$300, and his father has signed the bonds. His mother will also sign it when she gets well enough to come to town, and then she can go home rejoicing to his wife and child.

LOCAL BREVIETIES.

Never knock at a printing office door.

When you order job work inquire the price and pay the bill before retiting.

Keep your hands off the type and other material when you visit a printing office.

Unfort, the Julia, has fewer borders now than at any other time for nearly two years.

We are beginning to feel the need of that little sum you owe us—if we are mistaken in the sum, we ask pardon.

There were only four negro votes cast at Waynesburg, preceding three for Grant and one for Greeley.

Never ask a proprietor of a newspaper the name of his subscribers unless you can demonstrate to him that it is your business to know.

The English papers call the steam whistle the "American devil." We know better. It is the youth that comes down states and asks for copy.

Any person in business whether advertiser or not, let him put something he doesn't wish seen in an obscure corner of the paper.

The Philharmonic Society organized on the 28th of October and adjourned sine die on Saturday last. So much for the musical intelligence of the country.

We will in all cases stop your paper when the time for which you subscribed expires. Therefore, please authorise us to continue if you desire proper credit therefor.

Two full regiments are employed in manufacturing the New Wheeler & Wilson Sewing Machine.

New Building at Crab Orchard.

Mr. J. R. Carigan, architect and superintendent of the building at Crab Orchard Springs, informed us a few days ago that the work on the frame structure is still going on.

We know that Messrs. Shethy & Thorne are enterprising gentlemen, but as far as we imagined that they would erect a building at such a cost.

It is 200x100 feet, containing 10 rooms, two of which are 20x60 feet, and one—the dining room—is 40x60 feet. The 10x10 stories high. The entire premises will be lighted with gas and heated by steam. The gas will be furnished at a cost of \$2,000. The cost of the building will exceed \$20,000. The cost of the building will exceed \$20,000.

The cost of the building will exceed \$20,000.

FRIDAY, NOVEMBER 8, 1872.

Agricultural Report.
The report of the Department of Agriculture, for October 1872, has been issued, and as many of our readers will not receive it, we make the following extract. (100 is an average crop).

The New England States fail to report an increase in the product of wheat, with the exception of Maine. In the Middle States the fall off has been marked, the crop not having recovered from the effects of freighting in the winter. In the South the product is much larger than usual, both from increase of area and from superior condition. In Missouri, Kansas, Michigan and Ohio, the crop will be short; in Indiana and Illinois about the same as that of last year. The percentage of States making an increase are as follows, the comparison being with the product of last year: Maine, 100; Virginia, 101; North Carolina, 106; South Carolina, 113; Georgia, 181; Alabama, 133; Mississippi, 101; Texas, 320; Arkansas, 102; Tennessee, 200; West Virginia, 104; Indiana, 101; Wisconsin, 121; Minnesota, 130; Iowa, 112; Nebraska, 140; California, 175; Oregon, 105. A decreased product appears in the following States: New Hampshire, 98; Vermont, 95; Massachusetts, 90; Connecticut, 96; New York, 70; New Jersey, 80; Pennsylvania, 60; Delaware, 78; Maryland, 60; Ohio, 85; Michigan, 86; Illinois, 98; Missouri, 60; Kansas, 80.

The crop in Kentucky was very short last year, which gives a favorable aspect to the present comparisons, the average being 175, and indicating an increase from four millions of bushels to seven. Christian, Shelby, Mercer, Spencer, and other counties claim to have doubled their last production. Shelby—Average yield, 16 bushels against 5½ last year; that have, in their infancy been ever heard in tune.

A door mat which is not provided with a hole to trip up all your visitors when they come to call.

A table cloth or napkin without eleven holes in it.

A window that has not at the least one sash cord broken, and that does not vibrate noisily with the very slightest breeze.

An easy chair which gives you any ease when sitting in it, and wherein you may take your usual after-dinner nap, without any apprehension of a casker coming off.

A teapot, out of which, with excessive care and patience, you can contrive to pour a cupful without dropping the lid into it.

A sitting room, wherein, to avoid smoke suffocation, you need not keep both door and window open when you light the fire.

A minute in the day unmolested by an organ-grinder.

A window-shade which you can manage to pull up, even to the very top, without a wrinkle in it, and then not find it come down with a rattle on your head.

A waiting maid who looks as if she sometimes used a nail brush.

A ceiling mud and chimney ornament which are neither of them cracked.

A sofa at all softer than a hard board, and which has not its springs fractured exactly in the place wherein you want it.

A picture or engraving, hung up by way of ornament, which with my candle you can call a work of art.

A pair of decenters which are not an odd couple, and a half score of wine glasses any two of which will match.

A door which does not let a hurricane of draught through it, and which you can actually shut without a snap.

And, finally, a bed that you may go to without trembling, and a bill that you may pay without fear of being deceased.

FOR SALE!

100 ACRE FARM! A BARGAIN.

In the city limits of Cads Orchard, Ky., including the spring property, convenient to every necessary, cheap labor, and cheap, good improvements, several acres of apple, peach, pear and plum trees; grapes, strawberries, etc., never failing spring of pure cold water in the yard, which is beautifully set with shade and evergreen trees and thickly shaded with bluegrass.

JAS. S. FISH.

NEW STAGE LINE!

From Stanford to Somerset.

We know of three methods: First, the old French plan; this, rarely in Paris, by men who make it a special business. They take a deep tub with water on the bottom and a little elevation in the middle like an island, on which is only place for just one rat to sit on. The top is covered and has a large hole, opening downward. On the middle of this valve a piece of dried park or cheese is placed, and when the rat walks on it to get the cheese the valve goes down, drops the rat into the water and moves back into position. A road is made from the rat-hole to the top of the tub by means of pieces of board rubbed with cheese, so as to make the walk attractive for the rats. In the course of a night, some ten, twenty, or even more rats may go down, and if the island was not there, they would be found most alive in the morning quickly swimming round; but the provision of the little island saves the trouble of killing them, because their egotistic instinct for preservation causes them to fight for the extensive possession of the island, on which, in the morning, the strongest rat is found in solitary possession, all the others being killed and drowned around him. Second, the New York plan, invented by one of our friends. The floor near the rat-hole is covered with a thin layer of a moist elastic potato. When the rats walk on this it makes their feet sore; then they lick with their tongues, which makes their mouth sore; and the result is that they shun this locality—not alone,

GRASSHOPPERS.

A grasshopper (probably *Catoptenus fuscus rubrum*) in Lincoln county, Kentucky, eat the buckwheat down close to the ground.

How to Drive Rats Away With-out Poison.

From the Manufacturer and Builder.

GRASSHOPPERS.

How to Drive Rats Away With-

out Poison.

From the Manufacturer and Builder.

We know of three methods: First,

the old French plan; this, rarely in

Paris, by men who make it a special busi-

ness. They take a deep tub with water

on the bottom and a little elevation in

the middle like an island, on which is

only place for just one rat to sit on. The

top is covered and has a large hole,

opening downward. On the middle of

this valve a piece of dried park or

cheese is placed, and when the rat walks

on it to get the cheese the valve goes

down, drops the rat into the water and

moves back into position. A road is

made from the rat-hole to the top of the

tub by means of pieces of board rubbed

with cheese, so as to make the walk attrac-

tive for the rats. In the course of a

night, some ten, twenty, or even more rats

may go down, and if the island was not

there, they would be found most alive in

the morning quickly swimming round;

but the provision of the little island

saves the trouble of killing them, because

their egotistic instinct for preser-

vation causes them to fight for the ex-

tensive possession of the island, on which,

in the morning, the strongest rat is found

in solitary possession, all the others

being killed and drowned around him.

Second, the New York plan, invented by

one of our friends. The floor near the

rat-hole is covered with a thin layer of a

moist elastic potato. When the rats walk

on this it makes their feet sore;

then they lick with their tongues, which

makes their mouth sore; and the result

moist elastic potato. When the rats walk

on this it makes their feet sore;

then they lick with their tongues, which

makes their mouth sore; and the result

is that they shun this locality—not alone,

GRASSHOPPERS.

How to Drive Rats Away With-

out Poison.

From the Manufacturer and Builder.

We know of three methods: First,

the old French plan; this, rarely in

Paris, by men who make it a special busi-

ness. They take a deep tub with water

on the bottom and a little elevation in

the middle like an island, on which is

only place for just one rat to sit on. The

top is covered and has a large hole,

opening downward. On the middle of

this valve a piece of dried park or

cheese is placed, and when the rat walks

on it to get the cheese the valve goes

down, drops the rat into the water and

moves back into position. A road is

made from the rat-hole to the top of the

tub by means of pieces of board rubbed

with cheese, so as to make the walk attrac-

tive for the rats. In the course of a

night, some ten, twenty, or even more rats

may go down, and if the island was not

there, they would be found most alive in

the morning quickly swimming round;

but the provision of the little island

saves the trouble of killing them, because

their egotistic instinct for preser-

vation causes them to fight for the ex-

tensive possession of the island, on which,
